

*I'm up for it . . .*

*if you are, just tell me what  
you want me to photograph or film.*

When you want a viewpoint from higher than a step ladder and higher than the rooftops, simply allow a licensed and skilled drone pilot to take all of the pictures and video you want. Beautiful photography from just about any angle you want from as high as 400 feet above the earth.

Service is available in Carroll, Frederick and Washington counties in Maryland and also in York and Adams counties in Pennsylvania.
